

Profile Summary

Summary

This app allows you to show a summary of your personal data on your profile page.

Overview

With this app you can show info from your profile like profile image, description, birthday, email, skype, and skills and hobbies info. Also you can add information about you and a quote that will be shown in the summary.

Installation

Profile Summary is a lightweight plugin, so the installation is fairly simple. The installation steps are as follows:

1. Obtain the Profile Summary app from the Liferay Marketplace.
2. Deploy the app in your existing out of the box Liferay installation. If you haven't installed Liferay, please download and follow the instructions to do so.
3. Go to your profile page.
4. Click "Add" and search for Profile Summary.

It is that easy to install the Profile Summary app. The installation steps may vary depending on the Liferay version in use.

Features

- Show your profile info in your personal page.

Profile Summary

Welcome, John
